LED Color Changed Lighting Series

Four in one LED color change light combinated by 4 LED spotlight ,each include 108pcs super bright Φ10 LED chip.Beautiful design, unique functions, stable performance, is equipped with shock bags. Be controlled by DMX512 control mode, a pedal box, manual control box built-in automate program model., master/slave synchronous mode of automate program . Wide scope of application for stage, disco, KTV, family and friends together with a variety of portable take-party occasion to use.

DD-LED4H1-100 Four In One LED Color Changed Light

Voltage: AC90-240V/50-60Hz
Lamp: 28pcs 3W (three in one) LED
Power consumption :100W
Control model : DMX512 control model, a pedal box, automate program model., master/slave synchronous model (include sound control)
DMX channels: 15
Net weight: 11kg Gross weight: 16.5kg
Packing size: 136×41×19.5cm

DD-LED4H1T Four In One LED Color Changed Light

Voltage: AC90-240V/50-60Hz
Lamp: 432pcs Ø10 super bright LED chip, red 144pcs, green 144pcs,blue 144pcs
Power consumption :70W
Control model : DMX512 control model, a pedal box, automate program model., master/slave synchronous model (include sound control)
DMX channels: 15
Net weight: 8.5kg Gross weight: 14kg
Packing size: 136×41×19.5cm

DD-LED4H1G Four In One LED Color Change Light

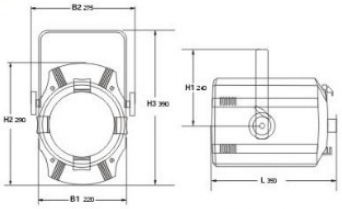

Voltage: AC90-240V/50-60Hz
Lamp: 432pcs Ø10 super bright LED chip, red 144pcs, green 144pcs,blue 144pcs
Power consumption :70W
Control model : DMX512 control model, a pedal box, automate program model., master/slave synchronous model (include sound control)
DMX channels: 15
Net weight: 8.4kg Gross weight: 8.9kg
Packing size: 38×33.5×41cm

DD-LED300 adopt 1 pcs 300W LED chip as light source , it is bright as 2000W traditional light or MSR575 light . Its design is excellent ,slight ,dustproof, adopt low noise fan ,control by DMX and manual button adjust focus. Its dim curve designed by our original software technology ,very equality . Lamp source including white(3200k,6000k,7200k) and RGB 3 in 1 , depend on client't requires. This light's birth is a great breach in the LED stage light industry . This light fit to studio,theater and all kinds of performing place , application very wide .

DD-LED300 LED Color Changed Light

Voltage: AC90-240V/50-60Hz
Lamp：300W single white(3200K,6000K,
7200K temperature)
300W single RGB 3 in 1 .
Total power: 350W
Control signal :DMX512
Control channel :300W single white ,5 channels .
300W RGB 3 in 1 ,8 channels .
Net weight: 8kg Gross weight: 9.5kg
Size: 39×27.5×29cm
Packing size: 45×31×34cm

The light body utilize high-pressure cast aluminum structure, with good heat dissipation. Beautiful light, dust and waterproof. Be controlled by DMX512 control mode, built-in automate program mode ,master/slave synchronous automate program mode, via ARM built-in microprocessor to drive chip high-precision constant current control mode. Adopt PWM digital dimming systems Real View 256 brightness adjustment, with RGB color mixing, strobe, and sound control features, there are infinite RGB color mixing system. LED life of 5000-10000 hours, the optical lens angle of 15 ° , 25° , 38 ° , 45 ° , 60 ° optional. The product is suitable for indoor and outdoor stage, architectural lighting, landscape lighting etc.

DD-LED54HS Waterproof LED Color Changed Light

Voltage: AC90-240V/50-60Hz
Lamp:
A model 54pcs 3W LED chip, red 12pcs,green 14pcs,
blue 14pcs,white 14pcs
B model 54pcs 3W LED chip, red 18pcs,green 18pcs,
blue 18pcs
C model 54pcs 3W LED chip, full white(3200k color
temperature or 5600k color temperature)
Power consumption :170W
Control signal : DMX512
Control channel: A model(8 channel),B model(7 channel),
C model(3 channel)
Protection grade: IP65
Net weight: 8kg Gross weight: 9.5kg
Size: 34×23×29.5cm
Packing size: 37×29×33.5cm
